### Purpose

To obtain a web design and development position with a progressive and exciting organization.

### Employment

**DATA, Inc.** - July 2010 to Present

#### Senior Front End Developer

DATA is a web application development and animation company that specializes in education, health care and government projects.

Have worked to create web applications for high traffic sites that work beautifully and maintain the client's brand. Collaborated with the creative team and project managers to implement designs while considering technologies to enhance the user experience beyond the static layout. Projects have included creating learning management systems for Colorado students, educational sites for the US Military, brochure sites for numerous non profits in the state of Colorado, and a news/media site for one of the largest labor unions in North America. Project requirements have necessitated mastering third party APIs, mobile technologies, Section 508 compliance and media presentation.

**BrandSavvy, Inc.** - September 2006 to June 2010

#### Lead Digital Media Developer

BrandSavvy is a strategic marketing, brand consulting and design firm assisting Fortune 1000 clients increase demand by building brand equity.

My role is as leader of interface design and development. Working directly with clients to discover and implement their digital needs while accounting for their branding objectives. Projects have included developing an intranet serving thousands of users, brand management websites for the nation's most successful hospitals, external websites for construction companies, health systems, and member associations, and custom web applications for pre-surgery assessment, job recruitment, and image management.

**Freelance Projects** - Spring 2002 to Present

Created web sites, identities and applications for artists, non-profits and small businesses.

### Education

**The University of Iowa** - August 2002 to July 2006, Fall 2009

Bachelor of Fine Arts in Graphic Design, Minor in Political Science
