Purpose

To obtain a position with a progressive organization

Employment

BrandSavvy, Inc. - September 2006 to Present

Lead Digital Media Developer

BrandSavvy is a strategic marketing, brand consulting and design firm assisting Fortune 1000 clients increase demand by building brand equity.

My role is as leader of interface design and development. Working directly with clients to discover and implement their digital needs while accounting for their branding objectives. Projects have included developing and intranet serving thousands of users, brand management websites for the nation's most successful hospitals, external websites for construction companies, health systems, and member associations, and custom web applications for pre-surgery assessment, job recruitment, and image management.

IMU Marketing and Design - September 2004 to July 2006

Web Developer

The Iowa Memorial Union serves as the hub of student and faculty activity on the University of Iowa campus.

Designed, developed, and maintained award winning web sites as part of a team. Worked independently with clients and marketing representatives to plan for and implement future development within their sites. Developed an extensive internal online project management system for a team of thirty print designers, marketers, web developers, and professionals.

Freelance Projects - Spring 2002 to Present

Designed and developed a number of different sites and applications for my clients including professional portfolios, artist libraries, non-profit sites, and company websites and identities.

Education

The University of Iowa - August 2002 to July 2006

Major in Graphic Design Program, Minor in Political Science

The University of Iowa - Fall 2009

Completing final 3 semester hours of BFA
